Sign In Screen Continue (Web)

The image shows a web-based sign-in screen with a dark blue gradient background. At the top left, there is a back arrow and the text "Sign-In". In the top center, a dark notification box displays the message "financial-management-app.expo.app says" and "[Sign In Status]: Successful", with a light blue "OK" button on the right. In the center of the screen, a light gray rounded rectangle contains the sign-in form. This form includes an "Email:" label above a text input field containing "example_email@gmail.com", a "Password:" label above a password input field with masked dots, and a blue "Sign In" button at the bottom.

Info Tab Screen (Web)

Info

1 Financials Tab Screen

This screen features 10 financial categories to manage and keep track of. Each category consists of 5 subcategories. To input a monthly amount for a subcategory, select the edit icon above the number input field, enter the amount, and save it using the save icon. Your data will be saved and persist across sessions, thus there is no need to refresh the screen. Swipe right to move forward and left to go back between categories.

2 Analytics Tab Screen

This screen features 3 real-time data visualizations based on data the entered in the financials tab screen, thus there is no need to refresh the screen:

[1] **Total by Financial Categories:** A bar chart displaying the total sum of subcategories for each category. X-axis labels 1–10 represent categories from Income (1) to Entertainment, Leisure, & Miscellaneous (10).

[2] **Stacked Percentages by Financial Categories:** A stacked bar chart displaying how the subcategories represented by different colors contribute to each category's total out of 100%.

[3] **Financial Health Summary:** A pie chart displaying the percentage breakdown out of 100% of your earnings (Income category), savings/investments (Savings & Investments category), and expenses (all other categories).

Analytics Tab Screen, Before (Web)

Analytics

- [1] **Total by Financial Categories** will be rendered once new data has been entered and saved in the financials tab screen.
- [2] **Stacked Percentages by Financial Categories** will be rendered once new data has been entered and saved in the financials tab screen.
- [3] **Financial Health Summary** will be rendered once new data has been entered and saved in the financials tab screen.

iOS Demo

Introduction Screen (iOS)

Sign Up Screens (iOS)

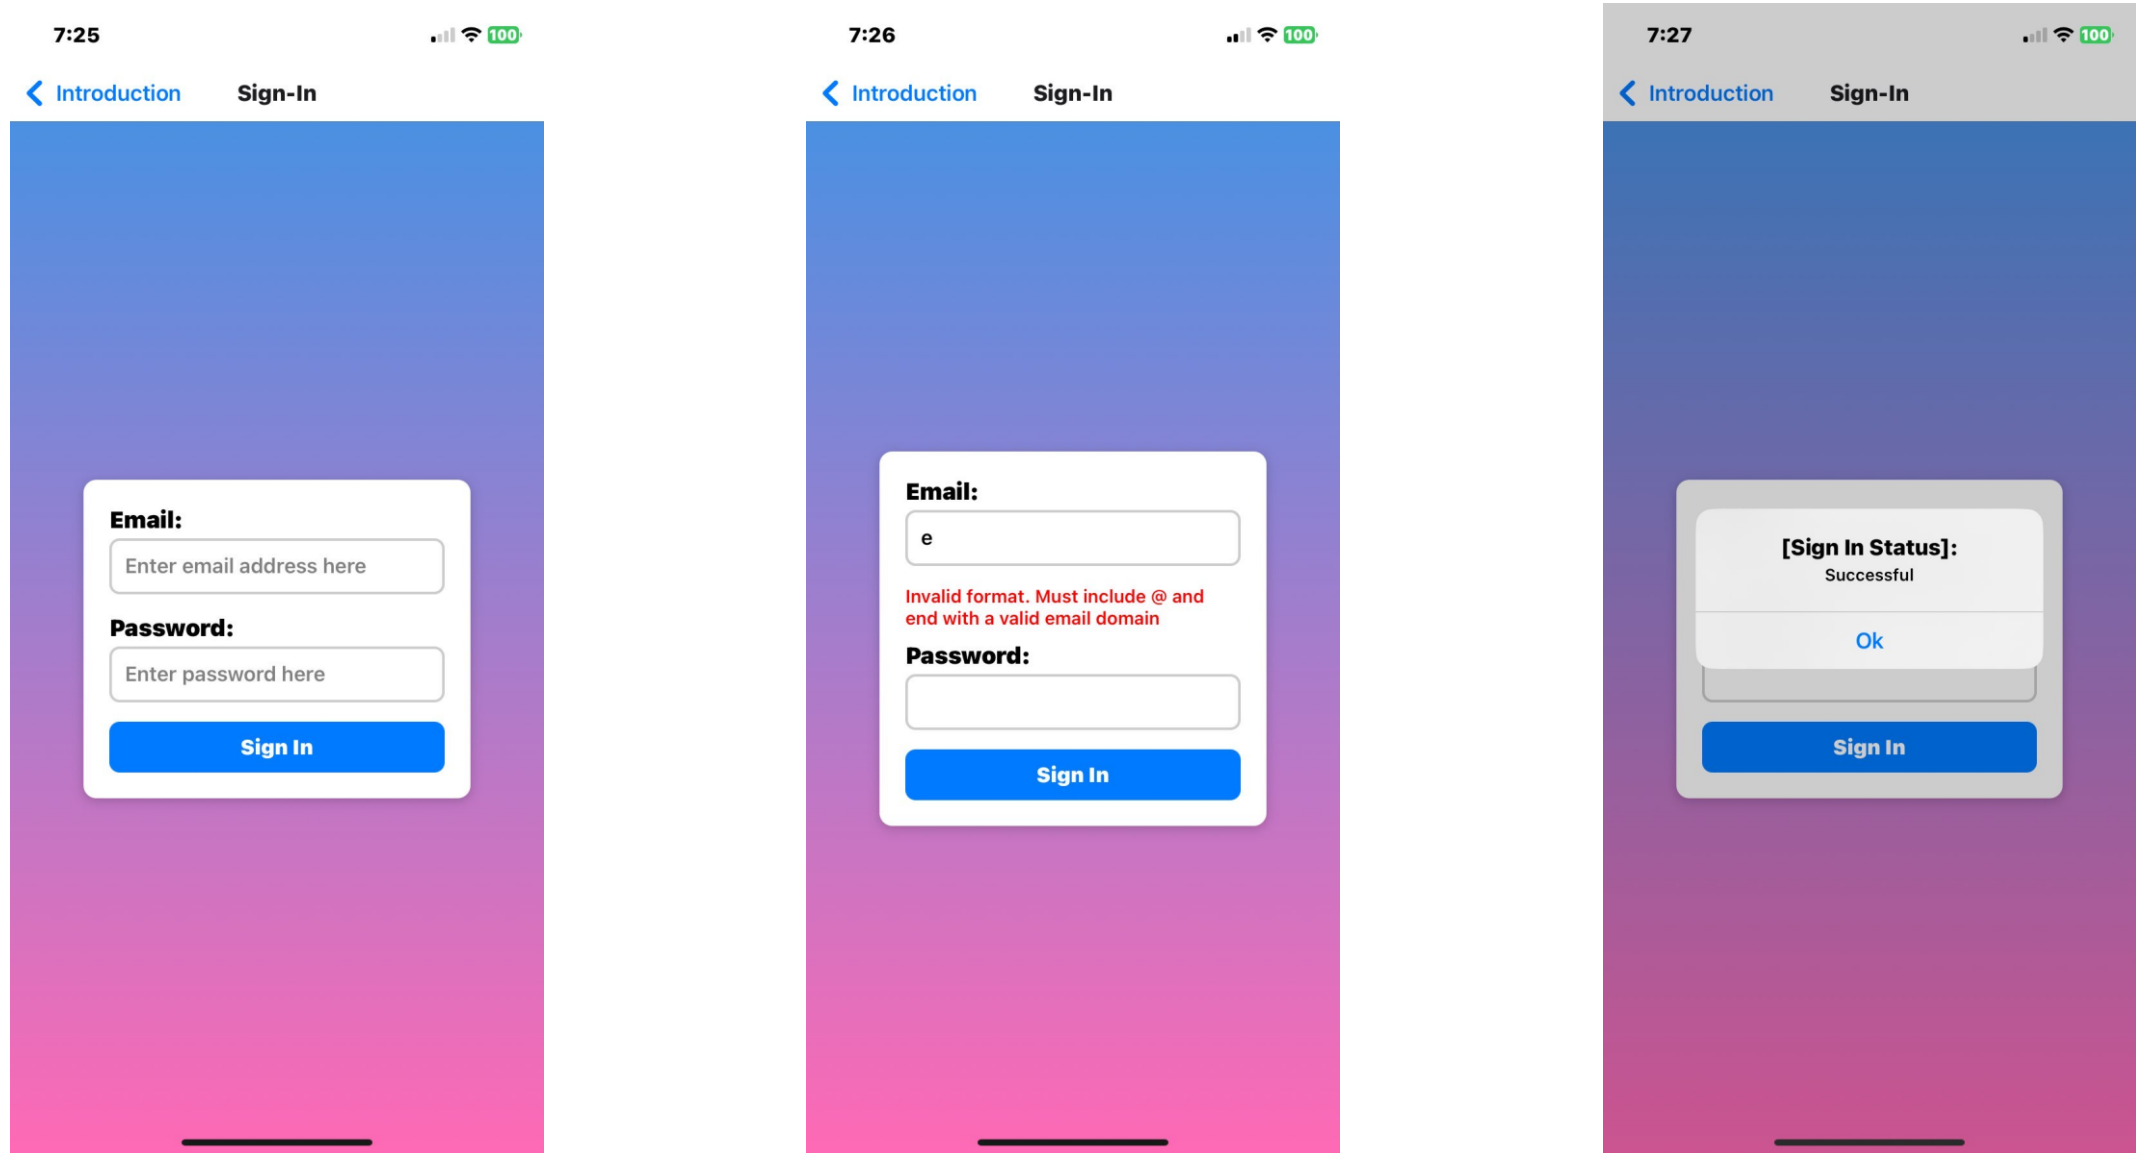

The image displays three sequential screenshots of an iOS 'Sign-Up' screen, illustrating the user flow from form entry to validation and feedback.

Screenshot 1 (7:23): The initial sign-up screen. It features a blue header with a back arrow and the text 'Introduction Sign-Up'. The main content area has a blue-to-pink gradient. A white card contains two input fields: 'Email:' with placeholder text 'Enter email address here' and 'Password:' with placeholder text 'Enter password here'. A blue 'Sign Up' button is at the bottom of the card.

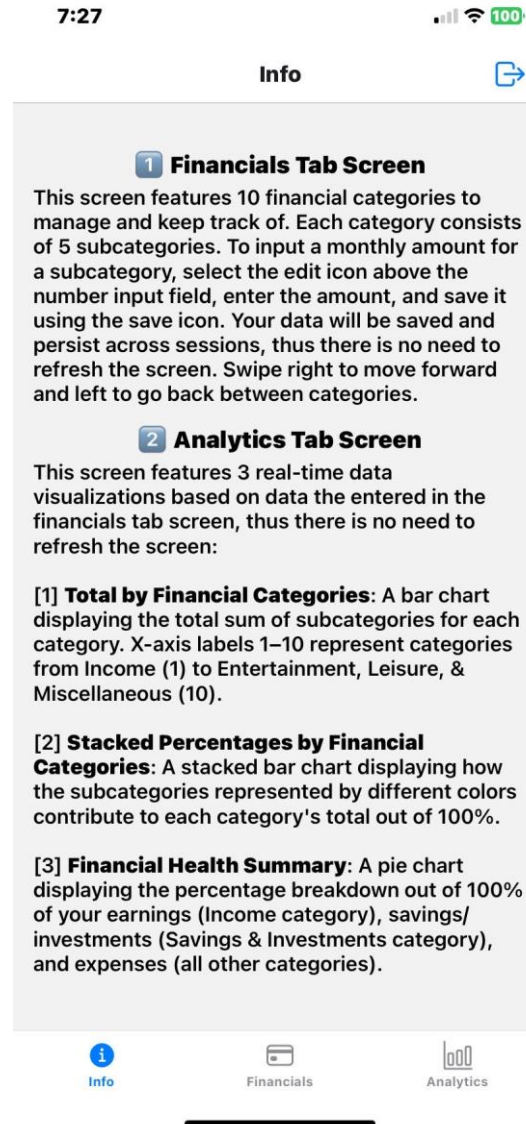

Screenshot 2 (7:24): The screen after the user enters 'e' in the email field. A red error message appears below the email field: 'Invalid format. Must include @ and end with a valid email domain'. The password field is empty, and a red message below it states: 'Length between 12 to 64 characters. At least one lowercase, uppercase, number, and special character'. The blue 'Sign Up' button remains at the bottom.

Screenshot 3 (7:25): The screen after the user attempts to sign up with the email 'e'. A grey modal dialog box is displayed in the center. It contains the text: '[Sign Up Status]: Unsuccessful. The provided email is already in use'. Below the text is an 'OK' button. The blue 'Sign Up' button from the previous screens is still visible at the bottom of the modal.
